THE UNIVERSITY OF IOWA

NATIONAL COLLEGE
HEALTH ASSESSMENT

International Student Summary Report

SPRING 2023
The National College Health Assessment III survey was conducted between late February to mid-March of 2023. All undergraduate, graduate and professional students were invited to take the online survey.

1,882 University of Iowa undergraduate students (UI UGS) and 1,084 graduate and professional students (UI GPS) completed the survey, for response rates of 9.3% and 14.3%. 87 international undergraduates and 146 international graduate and professional students completed the survey.

Student Wellness administered the third version of the National College Health Assessment (NCHA-III) for the second time in 2023 (first being in 2021), but also administered an older survey version (NCHA-II) for several years prior to that. Many questions on the NCHA-III survey were not the same as NCHA-II, and in 2021, the NCHA-III was administered during a time when most University of Iowa classes were online. Both factors limit the ability to examine health behavior trends over time.

The general student reports from 2023 & previous years can be viewed at https://studentwellness.uiowa.edu/ui-health-data. Questions can be directed to Trish Welter at trisha-welter@uiowa.edu.
Comparisons

TO UI UNDERGRADUATE SAMPLE

*International undergraduate students are...*

- more likely to eat 3+ daily servings of fruits and vegetables
- less likely to participate in high-risk drinking
- more likely to wear a helmet when riding a motorcycle or scooter
- less likely to drive after drinking

TO UI GRADUATE & PROFESSIONAL STUDENTS

*International graduate and professional students are...*

- less likely to consider seeking help from a mental health professional
- more likely to experience moderate or high stress
- less likely to get 7-9 hours of sleep on weeknights
- more likely to experience at least one negative consequence from their alcohol use if they choose to drink
- more likely to eat 3+ daily servings of fruits and vegetables
- less likely to participate in high-risk drinking
- more likely to report no mental health conditions
- more likely to be in the desired weight category
- less likely to experience moderate or high stress
- less likely to report distracted driving
- less likely to report feelings of flourishing
- less likely to feel very safe in the surrounding community during the day
- less likely to meet physical activity recommendations
- less likely to get 7-9 hours of sleep on weekends
- less likely to wear a helmet when riding
**GENERAL HEALTH**

91.6% of UI international undergraduate students and 89.7% of international graduate and professional students report being in good, very good, or excellent health (UI UGS: 88.3%, UI GPS: 89.9%)

**ACADEMIC IMPEDIMENTS**

**International Undergraduate Students**

1. Procrastination: 48.3%
   (UI UGS: #1, 50.5%)

2. Stress: 43.7%
   (UI UGS: #2, 44.6%)

3. Anxiety: 35.6%
   (UI UGS: #3, 40.4%)

4. Cold/Virus or Other Respiratory Illness: 28.7%
   (UI UGS: #7, 21.9%)

5. Chronic Health Condition(s): 25.3%
   (UI UGS: #4, 32.5%)

**International Graduate & Professional Students**

1. Procrastination: 37.0%
   (UI GPS: #2, 32.7%)

2. Stress: 29.5%
   (UI GPS: #1, 33.8%)

3. Anxiety: 24.7%
   (UI GPS: #3, 27.6%)

4. Chronic Health Conditions: 21.2%
   (UI GPS: #4, 26.7%)

5. Depression: 18.5%
   (UI GPS: 18.9%)

*Top five of 53 items that negatively impacted academic performance in the last 12 months*

**CAMPUS CULTURE**

*percent of students who responded “agree” or “strongly agree”*

- Feel like they belong at the university
  - International UGS: 72.0%
  - UI UGS: 72.4%
  - International GPS: 69.5%
  - UI GPS: 50.2%

- Feel that student health and well-being is a priority
  - International UGS: 57.5%
  - UI UGS: 56.1%
  - International GPS: 64.6%
  - UI GPS: 54.3%

- The campus climate encourages free and open discussion about student health and well-being
  - International UGS: 50.6%
  - UI UGS: 41.7%
  - International GPS: 56.9%
  - UI GPS: 49.1%
**ALCOHOL USE**

**High-Risk Drinking***

31.0% of all international undergraduate students and 5.5% of international graduate and professional students have had at least one instance of high-risk drinking in the last two weeks.

(UI UGS: 39.9%, UI GPS: 23.7%)

*(females: 4+ drinks / males: 5+ drinks)*

---

**Number of Drinks***

International undergraduates drank **3.9** drinks and international graduate and professional students drank **2.1** drinks on average last time they drank alcohol in a social setting

(UI UGS: 4.1, UI GPS: 2.9)

---

**Blood Alcohol Concentration***

The average international undergraduate student blood alcohol concentration (BAC) was **0.06**, and the average graduate and professional student BAC was **0.02**

(UI UGS: 0.06, UI GPS: 0.03)

---

72.4% of international undergraduate and 93.4% of international graduate and professional students drank 4 or fewer drinks the last time they drank alcohol in a social setting

(UI UGS: 64.1%, UI GPS: 83.6%)

---

79.7% of international undergraduate students and 94.9% of graduate and professional students had an average BAC of <0.08

(UI UGS: 71.5%, UI GPS: 90.7%)

* of those who used alcohol in the last 3 months
5.7% of international undergraduate and 0.7% of graduate and professional students reported that their alcohol use negatively impacted their academics in the last 12 months.
(UI UGS: 4.0%, UI GPS: 1.6%)

2.3% of international undergraduate and 14.7% of graduate and professional students reported driving after drinking.*
(UI UGS: 9.8%, UI GPS: 19.6%)

42.5% of international undergraduate students have ever used a fake ID
(UI UGS: 46.4%)

59.3% of international undergraduate and 14.1% of graduate and professional students reported drinking to get drunk the last time they drank**
(UI UGS: 54.9%, UI GPS: 23.6%)

61.0% of international undergraduate and 12.5% of graduate and professional students reported getting drunk the last time they drank**
(UI UGS: 53.0%, UI GPS: 24.4%)

3.1% of international undergraduate and 1.0% of graduate and professional students are in recovery from at least one substance
(UI UGS: 1.6%, UI GPS: 1.7%)

*of those who have used alcohol in the last 30 days
**of those who have used alcohol in the last 3 months
**OTHER SUBSTANCE USE**

### Cannabis
- **Used in last 3 months:**
  - International UGS: 33.3%
  - UI UGS: 36.0%
  - International GPS: 25.8%
  - UI GPS: 18.3%
  - UI UGS: 27.0%
  - UI GPS: 8.3%
  - UI GPS: 18.6%

- **Used in last 30 days:**
  - International UGS: 11.6%
  - UI UGS: 8.3%
  - International GPS: 25.8%
  - UI GPS: 18.6%

**18.2%** of international undergraduate students and **20.0%** of graduate and professional students reporting cannabis use in the last 30 days have driven within 6 hours of use at least once. (UI UGS: 26.9%, UI GPS: 22.8%)

**1.1%** of international undergraduate students and **0.7%** of graduate and professional student respondents reported that cannabis had negatively impacted their academics in the last 12 months. (UI UGS: 2.4%, UI GPS: 0.6%)

### Other Illicit Drugs*
- **International UGS**
  - Cocaine: 3.4%
  - Hallucinogens: 1.4%
  - Heroin: 0.1%
  - Inhalants: 0.4%
  - Meth: 0.2%

- **UI UGS**
  - Cocaine: 1.6%
  - Hallucinogens: 2.3%
  - Heroin: 0.7%
  - Inhalants: 1.1%
  - Meth: 0.2%

- **International GPS**
  - Cocaine: 3.2%
  - Hallucinogens: 2.8%
  - Heroin: 0.2%
  - Inhalants: 1.4%
  - Meth: 0.1%

- **UI GPS**
  - Cocaine: 3.4%
  - Hallucinogens: 3.2%
  - Heroin: 0.7%
  - Inhalants: 1.4%
  - Meth: 0.1%

**Nicotine**

**26.4%** of international undergraduate and **11.6%** of graduate and professional students have used at least one nicotine product in the last 3 months (UI UGS: 30.1%, UI GPS: 13.5%)

### Nicotine Products Used in Last 3 Months

MENTAL HEALTH

Psychological Distress
On the Kessler-6, 61.9% and 15.5% of international undergraduate and 51.4% and 11.6% of graduate and professional students reported moderate and serious psychological distress, respectively.
(UI UGS: 52.8%, 19.4%; UI GPS: 52.3%, 12.0%)

Self-Harm
10.5% of undergraduate and 4.8% of graduate and professional students have attempted self-injury and 0.0% of international undergraduate and 2.1% of graduate and professional students have attempted suicide in the last 12 months.
(UI UGS: 11.7%, 2.3%, UI GPS: 5.4%, 0.8%)

Conditions
19.5% of undergraduate and 8.3% of graduate and professional students reported having one mental health condition and 28.7% of undergraduate and 11.7% of graduate and professional students reported having two or more.
(UI UGS: 15.4%, 34.3%, UI GPS: 17.8%, 31.1%)

Top conditions ever diagnosed include:
- Anxiety: 37.9% of undergraduates, 14.6% of graduate and professional students
  (UI UGS: 41.7%, UI GPS: 38.5%)
- Depression: 26.4% of undergraduates, 13.1% of graduate and professional students
  (UI UGS: 30.1%, UI GPS: 29.2%)
- ADD/ADHD: 11.5% of undergraduates, 1.4% of graduate and professional students
  (UI UGS: 13.5%, UI GPS: 12.0%)

Services
51.7% of undergraduate and 48.6% of graduate and professional students reported receiving psychological or mental health services in their lifetime, and 36.8% of undergraduate students and 32.2% of graduate and professional students reported using them in the last 12 months.
(UI UGS: 55.6%, 37.8%, UI GPS: 64.4%, 42.8%)

Of those who have received services in the last 12 months, 43.8% of undergraduate and 53.3% of graduate and professional students reported receiving on campus services.
(UI UGS: 34.9%, UI GPS: 41.5%)

Flourishing*
- Lead a purposeful & meaningful life
  - International UGS: 60.9%
  - UI UGS: 65.0%
  - International GPS: 74.0%
  - UI GPS: 72.8%

### SEXUAL HEALTH

#### Had Sex in Last 30 Days

**Average number of sexual partners in the last 12 months***:
- 2.7 for undergraduate students (UI UGS: 2.0)
- 1.6 for graduate and professional students (UI GPS: 1.5)

**0.0% of undergraduate and 1.3% of graduate and professional students experienced unintentional pregnancy in the last 12 months*** (UI UGS: 0.6%, UI GPS: 0.9%)

**20.7% of undergraduate and 22.6% of graduate and professional students have ever been tested for HIV (UI UGS: 13.5%, UI GPS: 33.4%)

**82.1% of undergraduate students and 84.6% of graduate and professional students used pregnancy prevention the last time they had vaginal intercourse*** (UI UGS: 88.4%, UI GPS: 82.9%)

**Top pregnancy prevention methods***:

*International Undergraduate Students*
- External condoms: 53.1% (UI UGS: 49.4%)
- Birth control pills: 31.3% (UI UGS: 53.4%)

*International Graduate & Professional Students*
- External condoms: 63.6% (UI GPS: 38.1%)
- Birth control pills: 22.7% (UI GPS: 35.8%)

*among sexually active students*
**VIOLENCE***

**Intimate Partner Violence**

6.9% of undergraduate and 0.0% of graduate and professional students were called names, insulted or put down.
(UI UGS: 10.0%, UI GPS: 7.8%)

6.9% of undergraduate and 4.1% of graduate and professional students had partner(s) who insisted on knowing who they were with and where they were or who tried to limit contact with family/friends.
(UI UGS: 5.2%, UI GPS: 2.7%)

3.4% of undergraduate and 0.7% of graduate and professional students were pushed, grabbed, shoved, slapped, kicked, bit, choked or hit without consent.
(UI UGS: 2.7%, UI GPS: 1.3%)

2.3% of undergraduate and 0.7% of graduate and professional students were forced into unwanted sexual contact by being held down or hurt in some way.
(UI UGS: 1.2%, UI GPS: 0.4%)

3.4% of undergraduate and 1.4% of graduate and professional students were pressured into unwanted sexual contact by threats, coercion, alcohol or other drugs.
(UI UGS: 3.5%, UI GPS: 0.8%)

---

**SAFETY**

**Behaviors**

**Mostly or Always Wear a Helmet***:
Motorcycle or scooter: 58.3% of international UGS, 50.0% of international GPS students
(UI UGS: 46.1%, UI GPS: 62.7%)

Bicycle: 37.1% of international UGS, 40.0% of international GPS
(UI UGS: 44.2%, UI GPS: 67.5%)

**Driving**:
While texting/emailing/using apps**:
58.8% of international UGS, 48.4% of international GPS
(UI UGS: 61.9%, UI GPS: 57.4%)

Had an accident***: 8.2% of international UGS, 7.2% of international GPS
(UI UGS: 8.2%, UI GPS: 6.3%)
