Global Experiences and Study Abroad

Tippie is your home. The world is your classroom.
What is study abroad?
Why should I study abroad?

→ Unique skills and experiences
→ Cultural understanding
→ Intercultural communication
→ Learn about business around the world
→ Independence
→ Problem solving
→ Resiliency
→ Language skills
→ Differentiate yourself
→ AND it is fun
Step 1: Define your objectives
Set your goals

→ Why do I want to study abroad?

→ How do I want to challenge myself?

→ Where do I want to go?
  • Why? Would I consider somewhere else?

→ What skills do I hope to gain from this experience?

→ What area of the world might teach me more about my major or desired industry?

→ How could I expand on my world language?
Step 2: Research program options
